

Omni-Pass Key Fob

A Multi Technology Transmitter

Unit Locks | Amenity Doors | Parking Gate | Barrier Arms | Pool Gates

One device, multiple possibilities. With the Omni-Pass Key Fob you can program one device for the end user to access amenity spaces (club room, theater, pool, fitness center, etc), the parking structure and their own home. The lightweight, stylish design makes it easy to carry on a key chain, in your pocket or in your purse.

- Affordable solution for new construction and system upgrades
- Interfaces with virtually any electronic access control system
- Stylish design with metal construction for maximum durability
- Internal coils are available in Mifare, HID, NFC iClass and Prox
- Available in 1, 2, or 4 button configurations
- 300ft transmitter range
- Multiple color options available (special order)
- Stand alone or Wiegand output configurations
